

Wireframing

Helps to solve and document key interactions and user flows of the service. It describes the layout of the interface and indicates what content should be included.

- 1. Plan Overview**
A high-level overview of the members plan is displayed so members understand the relationship between their benefits and their plan.
- 2. View Plan Details**
This navigates members to the Plan Details page.
- 3. Navigation Panel**
Important links to documents and information live in this navigation panel.
- 4. Browse Benefits**
This is where members can browse for benefits by selecting from prepopulated category drop-down menus.
- 5. Benefit Index**
Selecting this will navigate to the benefit index page. The alphabet selectors have been removed to streamline and simplify the experience.
- 6. General Benefits**
General benefits that apply to the members plan are called out separately. Selecting a benefit navigates to the related Benefit Detail page.
- 7. Preventative Care**
This section communicates to members that their plan covers many preventative care services at no cost. A visual indicator shows them if they have used their annual physical exam benefit. An additional Learn More link will navigate to a Preventative Care page.
- 8. Discount Vision**
An overview of the benefits is shown here. A Learn More link will navigate to a Discount Vision page.
